

Hey Clubs,

Thank you for your patience as our department navigates the University's directives in regards to COVID-19. Here is how your clubs are impacted until further notice. Please read the entire email and respond back if you have any questions or concerns.

1. Only club practices/meetings are allowed to remain active until further notice on Campus Recreation facilities only. These practices/meetings must stay under 50 people in attendance. I encourage meetings to be held remotely instead of in-person if possible.
2. No club will be able to host any game, tournament, or event/fundraiser on campus until further notice.
3. No club will be able to travel to any game, tournament, or event off-campus until further notice. You are on a current travel restriction, effective immediately.
4. No club will be required to attend our sports club 1v1 meetings, General Body Meetings, Sport Club Executive Board Meetings, Budget Proposal, Sport Club Banquet until further notice, effective immediately.

Here is what I need from you.

1. I need confirmation (yes or no) from each club if you plan to still hold your practices so I can update our scheduling system.
2. If we have paid for registrations, hotels, etc. for future games/events we need to start working on getting refunded immediately. I will work with each club and your conference organizers to help make this happen.
3. I will connect with each club to schedule remote phone meetings moving forward. These meetings will discuss what we need to accomplish for the rest of your semester, budgets, renewal for next academic year, and introducing new officers.

Please be advised that these decisions are from UIC's upper level administration and our department is working to implement these new guidelines. We are monitoring this ongoing situation and will update you with more information as we are advised. I do not have an end date or a return to normal activity at this time, and please note that everything above is subject to change at any given time and I will inform you as I get updated information.

Remember, wash your hands 😊

Sam
